## **Technical data sheet**

Device installation trunking, Signa Style, trunking width 130, trunking height 70 Item number: 6133261

Device installation trunking with base perforation for direct wall mounting or mounting on panels. Other RAL colours can be supplied on request. The visible surfaces of the painted device installation trunking are laminated. The cover must be ordered separately. Note:

For anodised device installation trunking and fittings made from aluminium, slight colour differences caused by permitted scatter due to the material and process conditions cannot be avoided (according to DIN 17 611). Alternatively, we recommend powder coating in the colour RAL 9006 (white aluminium). Tested according to DIN EN 50085-1 and DIN EN 50085-2-1. Order the base and cover separately.
